

# Electric Vehicle Courtesy Charging Protocol

If you are in need of a charge, you may unplug my  
Electric Vehicle after it reaches the time indicated below.

**Please reconnect the charger if you return before I do.**

To contact me:

Please do not unplug before the time indicated by paper clip.

Unplug at  
anytime

AM

PM

- **Display this Charging Protocol Placard in a visible location.**
- **Always connect another vehicle to the charger upon your return, if there is a waiting vehicle with an accessible charge port within reach of the charger cable.**
- **Respect others - wait to connect your vehicle until the time requested by the other driver's placard. If there is no placard, wait until you are reasonably sure that the other vehicle is at least 75% complete. Also, please request only the amount of charge you need to reach your next destination.**
- **If your vehicle has a locking charge port please leave it open so other drivers can insert the connector upon return.**
- **For inductive chargers, insert the paddle briefly into the charger to "reset" it before inserting into another vehicle and make sure the charger reads "CHARGING".**
- **Whenever possible, park in a fashion that permits other vehicles to access the charger.**
- **If you find a charger that is not functioning properly, call 1-888-890-GOEV (4638) – leave a message if necessary.**
- **If you can, leave a contact number on this placard. A simple call will clear up most difficulties.**

The proper and conscientious use of this placard will enable more vehicles to make use of the public charging infrastructure and increase everyone's enjoyment of their electric vehicle.
