

## TRACTION BATTERIES

The sealed nickel-metal hydride batteries, which excel in reliability and provide a no-maintenance feature, have been adopted as traction batteries.

### ► Specifications ◀

Item	Specifications
Type	Nickel-Metal Hydride
Total Voltage V	288 (12 V × 24 in series)
Capacity Ah (5HR)	95
Weight kg (lb)	450 (992)
Size L × W × H mm (in.)	388 × 116 × 175 (15.3 × 4.6 × 6.9)
Energy Density Wh/kg	65
Output Density W/kg	280
